

Mission

To act as the united and trusted voice of European gastroenterology and to be recognised as the leading authority for digestive health. We promote science, research, education and excellent quality of care and we aim to reduce health inequalities across Europe.

Vision

To reduce the burden of digestive diseases and improve digestive health.

UEG works in a contextual environment taking into account a wide range of environmental, sociological, political, economic and regulatory factors that influence the nature of digestive health and healthcare delivery.

Core Values

UEG's core values include integrity, quality, diversity, independence, respect, accountability and transparency as an inclusive concept for all strategic drivers

Organisational Vitality

We ensure organisational vitality by rotating volunteer leadership, by professional committed staff, by well-equipped infrastructure and by good governance

Strategic Drivers

UEG Week

Organising the best international multidisciplinary digestive health meeting in the world by sharing the highest quality research and best clinical practice, delivering most up-to-date education, and bringing together the sharpest minds

Education

Taking a central role in delivering and disseminating cutting-edge, unbiased continuing medical education and supporting professional development

Research

Encouraging innovation and excellence in research by supporting research facilitation and cooperation in the field of digestive health

Journal

Providing a key authoritative, high quality and trusted journal as an international forum for research in gastroenterology

Quality of Care

Improving clinical standards and guidelines, practice and services to reduce health inequalities across Europe for better patient care

Public Affairs

Acting as the united voice of European gastroenterology for the public and in different national and European institutions to promote digestive health
